

# Twine

Hand | Elastic | Automatic

# Introduction

With over half a century of experience in the manufacturing and distribution of Hand Twine, Machine Twine and Elasticated Machine Twine **SCOTNET SOLUTIONS** are in a unique position to understand your production requirements.

The **SCOTNET SOLUTIONS** ranges of twine have been developed and sourced by working with our customers to achieve the results best suited for their product. By combining practical experience with our state of the art manufacturing process we are able to design and deliver elastic netting and twine efficiently and accurately. Our Scotnet Quality System is unique and operates to our own SAFE-T standard. From the smallest butcher, to the largest processor **SCOTNET SOLUTIONS** has something for everyone.

## Key Benefits

### Blue Plastic Core

Food grade plastic core, no cardboard to absorb moisture or bacteria.

### Individual Batch Numbers

Each roll has a batch number for full traceability.

### BRC Accredited

Made in our UK **AA** grade **BRC** accredited plant, audited by **SAI GLOBAL**, a must for the food industry.

### Smoothflow™

We make the twine using a special technique to give smooth dispensing from the cone every time.

### Balanced Threads

During manufacture, we balance the threads, which eliminates twisting and knotting.

### No Breaks

We guarantee that there is no breaks in our twine, one continuous length with no knots, for less down-time.

### Cone Sizes

We manufacture our twine to the industry standard. We can also make bobbins in any size up to 2kg's.

### Easy to use

Our Machine Twine and Elastic Machine Twine load directly on to the cartridges of most stringing machines.

### Roast Stable

All of our twine, even the coloured ones can be cooked at oven temperatures up to 220°C.

### Technical Specs

Fully compliant with: The Plastic Materials and Articles in Contact with Food Regulations 2006 and amendments and revisions, also the UK Essential Packaging Requirements.

## The Ranges

### Hand Twine

Ideal for the butchers market, our hand twine is made from rayon\* and extremely strong. Each roll is supplied on blue plastic cores, and individually shrink wrapped for hygiene purposes.

Name	Colour	Breaking Strain (KG)	Bobbin Weight (grams)	Approx Bobbin Length
Rayon No 104	White	30	500	600m
Rayon No 6	White	35	500	250m
Rayon No 5	White	45	500	250m
Soft No 5	White	27	500	300m
Rayon No 4	White	65	500	180m
Green/Red/White	Green/Red/White	35	500	270m
Red/White	Red/White	35	500	270
Blue/White	Blue/White	35	500	270
Green/White	Green/White	35	500	270

\*Soft No 5 is made from a combination of food grade polyester and cotton.

## Automatic Twine

Our machine twine is made from the highest specification food grade polyester and food grade cotton. Each cone is individually wrapped in polythene and has its own batch traceability number. The breaking strength of this twine is equivalent to other machine twines in the market, but each cone has almost 40% more twine per KG. There are no knots or joins on the twine giving one continuous bobbin.

Name	Available Colours	Breaking Strain (KG)	Bobbin Weight (grams)	Approx Bobbin Length
Automatic Twine	White Black/White Blue/White Green/White Red/White	25	840	1120m

## Elastic Twine

Elastic Machine Twine is designed to be used on all automatic tying machines including Siebeck, Tom, Pakseal and Weinert. Made from the highest specification food grade polyester and food grade natural latex rubber, we have used the latest winding technology to create a world beating twine that is oven safe up to 220°C.

Name	Colour	Bobbin Weight (grams)	Approx Stretched Length	Approx Stretched Length per Kg
Elastic Twine	White Black/White Blue/White Green/White Red/White	760	1390m	1900m
